Reduce Glare

Reduces the annoying glare from the sun. Improves visibility and enhances driving conditions.

• Heat • UV Radiation • Decorative

The most unique window film in the world XDS Glass Protection System

Keep Your Valuables Safe

Protects against - "Smash & Grab" Thefts

Keep your family safe

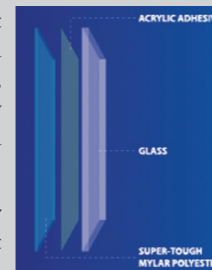

Protects against accidental glass shattering.
Protects against violent weather.

Here's precisely how XDS-GPS works

There are two parts to the system. One - A super tough mylar polyester with a scratch resistant coating. Two - A specially formulated and proprietary high temperature acrylic adhesive, which when applied to the glass, actually infiltrates the glass pores, gets absorbed and hardens to strengthen the glass itself.

The result? The same glass now becomes stronger by upto 400%. It actually repels objects hurled at it! That includes bricks and flying debris.

• Accidental Shattering • Thefts

Enhance your vehicle with XDS Automotive Solutions
